Profile

I am a passionate **Full Stack Developer** who enjoys building clean, modern, and responsive web applications. My technical expertise includes **React.js, Node.js, Express.js, MongoDB, and Tailwind CSS**, supported by a solid foundation in **Java (Core, JDBC, JSP) and SQL**.

I have developed projects such as a **React-based blog platform with an Appwrite backend**, a **portfolio website**, and several smaller applications demonstrating **authentication, CRUD operations, and responsive UI design**. My work focuses on **clean code, scalable architecture, and user-friendly experiences**.

I am a **quick learner and problem solver** with growing interests in **cloud technologies, AI tools, and modern web frameworks**. Currently, I am seeking **internships or entry-level opportunities** where I can apply my skills to real-world projects, collaborate with teams, and grow into a professional Full Stack Developer.

Skills

 Languages: Html, Css, JavaScript, Java, SQL

 FrameWorks and Libraries : React.js, Express.js and Node js

 Databases : Mongoddb and Appwrite

 Tools and Platforms : Git, GitHub and Vs Code

 Other : API Integration, Authentication system and Responsive Design

Experience

Web Developer Intern – Amity Innovation Incubator

Noida, Uttar Pradesh | Mar 2022 – Apr 2022

- Developed responsive, multi-section forms using HTML, CSS, and JavaScript.
- Integrated dynamic input fields, file uploads, and interactive UI elements.
- Focused on clean, user-friendly UI/UX to improve form usability.
- Collaborated with team members to test and deploy applications.

Education

Diploma in Computer Engineering – Amity University (2019 – 2022)

B.Tech in Computer Engineering – KCCITM, AKTU (2023 – 2026)

Projects

Blog Platform | React.js, Appwrite, Tailwind CSS, React Hook Form, TinyMCE | [Link](#)

- Built a full-stack blogging platform with authentication, CRUD operations, and media uploads using Appwrite backend.
- Implemented features like user login/signup, rich text editor for content creation, and image storage via Appwrite.
- Designed responsive UI with Tailwind CSS and optimized components for scalability.

Portfolio Website | React.js, Tailwind CSS | [Link](#)

- Developed a responsive personal portfolio website showcasing projects and skills.
- Integrated smooth navigation, modern UI/UX design, and reusable React components.
- Deployed and optimized for fast performance across devices.

Certifications

- Core Java, JDBC, JSP, SQL
- HTML, CSS, JavaScript (Web Development)
- Git & GitHub (Version Control)
- Basics of Cloud Computing (IBM Certified)
- Generative AI & AI Productivity Tools (Microsoft & LinkedIn)
